

CLAIMS

What is claimed is:

- 1 1. A fishing chair comprising:
 - 2 a front frame;
 - 3 a back frame;
 - 4 a chair frame pivotally connected to at least one of said front and back
 - 5 frames; and
 - 6 a stabilization frame pivotally connected to said back frame.

1 2. The fishing chair of Claim 1, wherein said stabilization frame includes steps having
2 a "┐" cross-section.

1 3. The fishing chair of Claim 1, wherein said fishing chair further includes a pair of
2 stabilization bars pivotally connected to said front and back frames.

1 4. The fishing chair of Claim 1, wherein said front frame includes a plurality of steps.

1 5. The fishing chair of Claim 1, wherein said back frame includes a plurality of steps.

1 6. The fishing chair of Claim 1, wherein said back frame is longer than said front
2 frame.

1 7. The fishing chair of Claim 1, wherein said fishing chair further includes a
2 detachable personal floatation device securely contained within a personal floatation device
3 frame attached to said back frame.

1 8. The fishing chair of Claim 1, wherein said fishing chair further includes a fishing
2 pole holder attached to said front frame.

1 9. The fishing chair of Claim 1, wherein said fishing chair further includes a chair
2 assembly situated on top of said chair frame.

1 10. The fishing chair of Claim 1, wherein said fishing chair further includes a pair of
2 armrests pivotally connected to said front and back frames at distal ends of said front and
3 back frames.
